

HARDCAT

Delivering Asset Certainty

Asset Management Solutions

Hardcat Products & Business Benefits

OVERVIEW

Hardcat Pty Ltd delivers two comprehensive asset management software suites, built on decades of expertise, that centralise and automate lifecycle tracking, maintenance, and auditing of assets, equipment, and evidence within a single platform. Featuring barcode, RFID, GPS, and Bluetooth-enabled asset tracking, intuitive mobile apps, integration with ERP and IoT systems, and robust compliance tools, Hardcat empowers organisations to optimise asset processes, ensure security, and meet regulatory standards efficiently.

HARDCAT VX - Small-Medium Asset Management Solution

HARDCAT VX is designed for small to medium-sized organisations needing reliable and feature-rich asset management for teams of up to 20 users. It streamlines tracking of equipment, inventory, and assets with core modules like asset registers, barcode and RFID tracking, mobile audit capabilities, automated depreciation, maintenance scheduling, and advanced reporting features. Optional modules such as purchasing, help desk, and inventory provide added flexibility for diverse operational needs.

Deployment options include a secure client/server solution and a web-accessible module (HardcatWeb) for remote access, supporting both local infrastructure and cloud-hosted, managed environments. This adaptable approach ensures seamless scalability, enhanced security, and an optimised fit for varying organisational requirements.

HARDCAT LEBOSI® - Enterprise Asset Management Solution

The Hardcat Lebosi solution is purpose-built for organisations that operate across numerous and distributed locations—like police, fire brigades, manufacturing, defence, and any sector requiring firm chain of custody and complete visibility across all sites. Hardcat Lebosi empowers users to manage, transfer, and audit physical assets and equipment between sites while enforcing accountability, minimising risk, and offering unified dashboards and real-time tracking for informed business decisions.

Hardcat Lebosi's modular, integration-ready architecture connects seamlessly to ERP, finance, and analytics systems, ensuring all asset data stays synchronised and secure. With a user-friendly, role-based interface, users only see what's relevant to them, simplifying complex tasks like audits, asset transfers, maintenance scheduling, and compliance management. Lebosi scales effortlessly with enterprise growth, offering robust asset lifecycle management, automated alerts, comprehensive reporting, and strict adherence to asset custody protocols for organisations operating at scale.

- Asset agnostic – built to manage all types of assets.
- Tracking and visibility through day-to-day transactions.
- Accountability and visibility of assets.
- Ensuring safety of critical assets through proactive maintenance and management.
- Auditing tools and processes to identify what is and isn't there.
- Mobile App and tools to increase efficiency and accuracy.
- Job management to keep record of service history for compliances and whole of life cost of asset ownership.
- Single enterprise solution with restrictive access for each Org Unit based on need to know, need to see, need to do. Increased ROI through one asset solution for all assets.

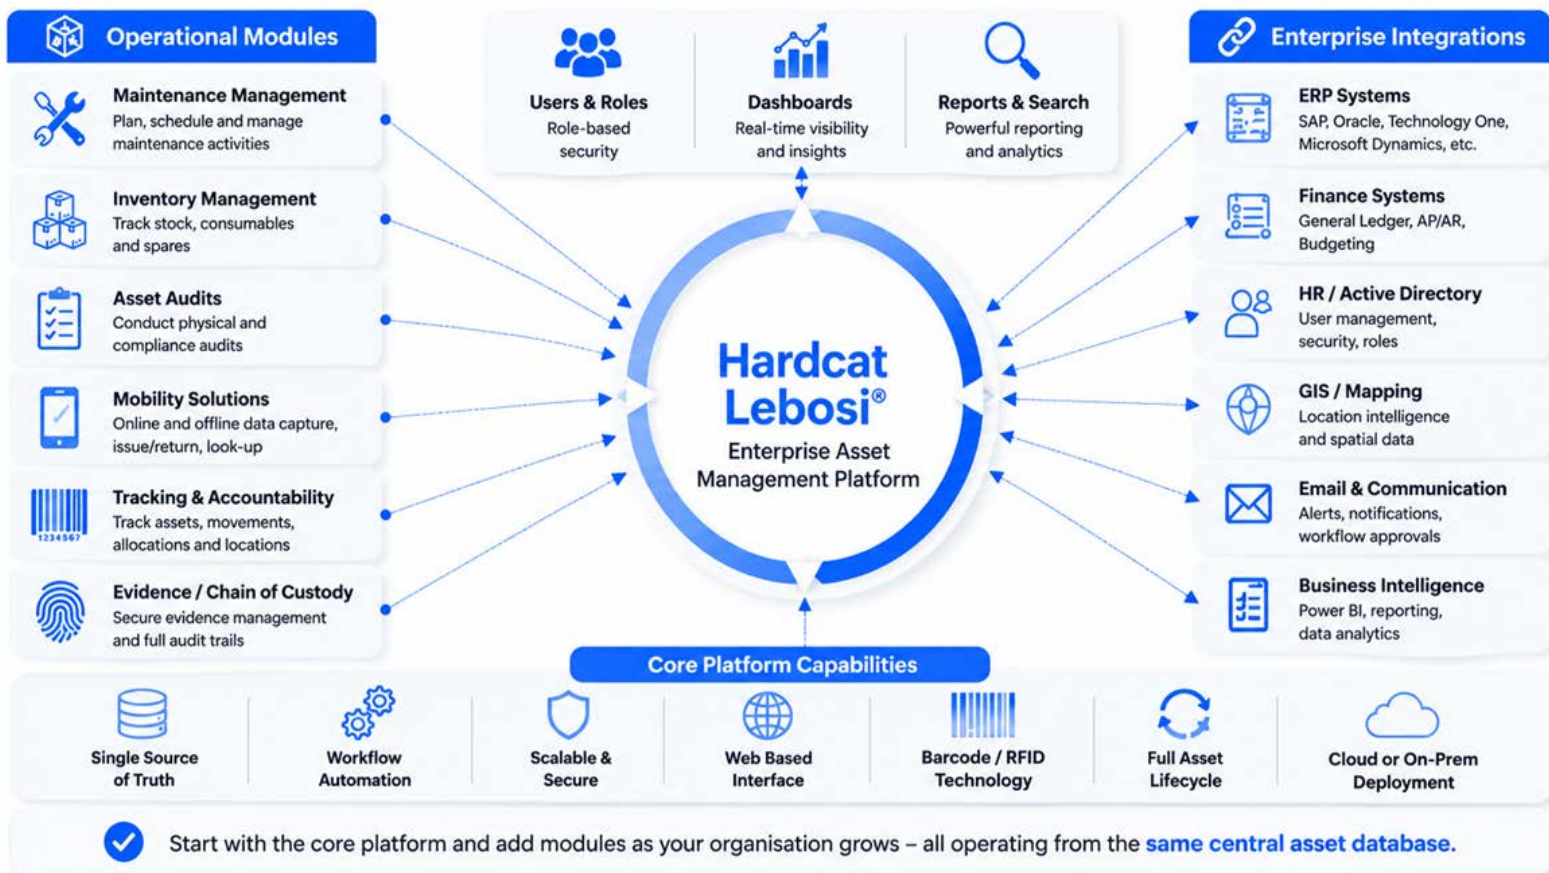

Hardcat Lebosi Platform Ecosystem

One Platform. One Enterprise Database. Unlimited Scalability.

Hardcat Lebosi is a modular Enterprise Asset Management platform built around a single enterprise database. Organisations begin with the core platform and expand by enabling additional modules as operational requirements evolve. Every module shares the same asset information, ensuring one source of truth across maintenance, inventory, audits, mobility, compliance and reporting.

Hardcat Lebosi® Platform Ecosystem

One enterprise database. Complete asset lifecycle. Modular. Scalable. Integrated.

Business Benefits

WE BRING THE IDEAS – not just the capabilities. Hardcat allows asset-intensive organisations to see higher levels of reliability, safety, and sustainability while also reducing costs.

Mobility – Right Tools in the Right hands

Best available Mobile App technology for teams in the field. With disconnected state for off-line capabilities where wireless (mobile or Wi-Fi) connection is not available.

Intuitive Navigation

Find what you are looking for quickly with easy-to-use dashboards and hyper links to reduce navigation clicks to complete a single operation.

Integration Capabilities

Seamless integration with existing systems helps create a unified asset management ecosystem, facilitating more informed decision-making and better resource allocation.

Compliance and Regulatory Support

Designed to support compliance and regulatory needs, helping organisations meet industry standards and requirements.

Planned and Reactive Jobs

Scheduled and reactive jobs, allocation to the right people, at the right time, with the right tools. Access and complete jobs using our mobile application with historical records for compliance, reporting and life- cycle cost. Improved governance through dashboard statuses.

Digital Transformation

Digital technology for asset life cycle management, focused on optimising the overall lifetime performance of asset are twice as likely to report performance improvements in reliability and productivity.

Qualifications and Impairments

Putting the right tools in the right hands to ensure safety of personnel and meeting safety compliances

Planned and Reactive Maintenance

Schedule preventive maintenance activities for equipment to help prevent unexpected breakdowns as well as ensure compliance with regulators. Provides monitoring, maintenance and reliability data in a single platform. Ability to interface with many services and systems.

User-Friendliness

Quick adoption by employees, leading to higher data accuracy, faster asset processing times, and reduced chances of errors in asset management activities.

Improving Productivity

Supports asset-intensive industries in managing large volumes of assets through a single source asset register with real time updates and visibility. Efficiencies gained through simplified processes and barcode and/or RFID scanning technologies.

Configurable Analytics and Reporting

Tools for scheduling, mobility, calibration, and environmental and health monitoring. Easy to be customised and strong for reporting. Saving time on generating reports of activities with the freedom to create any customisable query.

Keep Data Up-To-Date

Use dashboard tools and reports to alert you to data issues as they arise, making it easier to keep asset data up-to-date and accurate.

Effective Inventory Management

Control and manage spare parts and inventory. Visibility into inventory levels, stock movements, and reorder points. Helping organisations optimise inventory levels, reduce stock-outs, and streamline processes.

Customisable Configuration

Adapt to existing processes and easily integrate it into operations, streamlining asset management tasks and increasing overall efficiency.

Delivering Asset Certainty

Hardcat solutions have been chosen by more than 2,000 of the world's most prestigious corporate and government organisations across 121 countries. Hardcat's customer base demonstrates remarkable longevity, with an average active customer tenure of approximately 14 years. More than 60% of customers have maintained their licences for over a decade, reflecting exceptional retention, product reliability and long-term value. Approximately 37% of clients have been with Hardcat for 11–20 years, while a further 26% have maintained their relationship for 21–30 years, highlighting deep, enduring partnerships built on trust and proven results.

Hardcat Lebosi, Hardcat's enterprise platform launched in 2017, has already achieved strong market adoption and continues to expand its customer base across a range of industries. Its growing success builds on Hardcat's long-established reputation for customer loyalty, innovation and long-term value delivery.

Join the many organisations that have already completed their due diligence and selected Hardcat as their trusted asset management partner. Few vendors can match Hardcat's credentials, track record and credibility in enterprise asset management solutions.
